

CITY OF ANACORTES

Job Description

August 2002

JOB TITLE: Assistant City Engineer/ Manager of Engineering Services

DEPARTMENT: Public Works

REPORTS TO: Public Works Director/City Engineer. One of three Assistant City Engineers reporting to the Public Works Director/City Engineer.

GENERAL PURPOSE OF JOB: To contribute to the successful operation, maintenance and constant improvement of a robust infrastructure for the City of Anacortes and its regional water system. This position is entrusted to champion customer service, technical vitality and fiscal stewardship and responsiveness within the Public Works Department. Applies intensive and diversified knowledge of engineering principles and practices in broad areas assignments and related fields.

LEVEL OF AUTHORITY: Manages responsibilities independently with only general direction, ensuring that applicable City ordinances, governing laws and generally accepted procedures and practices are followed.

DETAILED PURPOSE OF JOB: As a Division Head in the Public Works Department manages and leads a staff of 3-6 engineers and technicians in the Engineering Services Team. The team performs comprehensive planning, design and design management, traffic engineering, mapping/ records and GIS, infrastructure grants management. Manages a wide range of public works projects including consultant or in-house design, preparation of comprehensive plans, engineering studies, and ordinances. Responsibilities will involve full spectrum of municipal infrastructure including streets, water and wastewater treatment facilities, water transmission, storage, and distribution systems, wastewater collection and pumping systems, and storm water detention, drainage and conveyance systems, and city parks and buildings. Manager and leader for the successful application and administration of local, state, and federal infrastructure grants program for the city. Prepares reports and graphics and assists in presentations at public hearings, Planning Commission meetings and City Council meetings. Provides liaison to other public agencies, engineering consultants, public utilities and developers on major public improvement projects. Assists in the preparation of annual engineering and capital improvement budgets.

WORK ENVIRONMENT: Work is performed both in the field and in a fast-paced office setting with frequent interruptions from customer phone calls, City staff, company representatives and citizens. Work is also performed at construction sites in the community, outdoors in all kinds of weather conditions and with the usual hazards associated with construction sites. May be exposed to raw sewage, toxic or unpleasant gasses, heights, chemicals, and unsanitary or slippery conditions.
